

User Registration and Login flow

- The normal user registration in Apps, covers currently 3 main flows:
- Create a Philips account (with email, with mobile number)
 - Log in with a Philips account (with email, with mobile number)
 - Log in with a Social Media account (with email) (mobile number flow still to be determined...)

The user interaction of the user registration component is worked out in a screen flow, presented below. This flow is also available in pdf.

This design specification document is related to version S3.1_v008 of the interaction flow.

COPPA consent flow
